Q. What about interlibrary loans?

A. Institutions October use hard copies derived directly or indirectly from the electronic edition of the publications for the purpose of inter-library loan with the same limitations that apply to paper copies for that purpose made from the print edition of the journals. Specifically, copies must be made in compliance with Section 108 of the Copyright Act of the USA and Technological Uses of Copyrighted Works (CONTU Guidelines), the text of which is available as part of USA Copyright Office Circular 21. The electronic transmission of copies of articles for inter-library loan purposes is not allowed.
