

WolfWalk, Two Ways

<http://m.lib.ncsu.edu/wolfwalk>

<http://www.lib.ncsu.edu/dli/projects/wolfwalk/>

WolfWalk

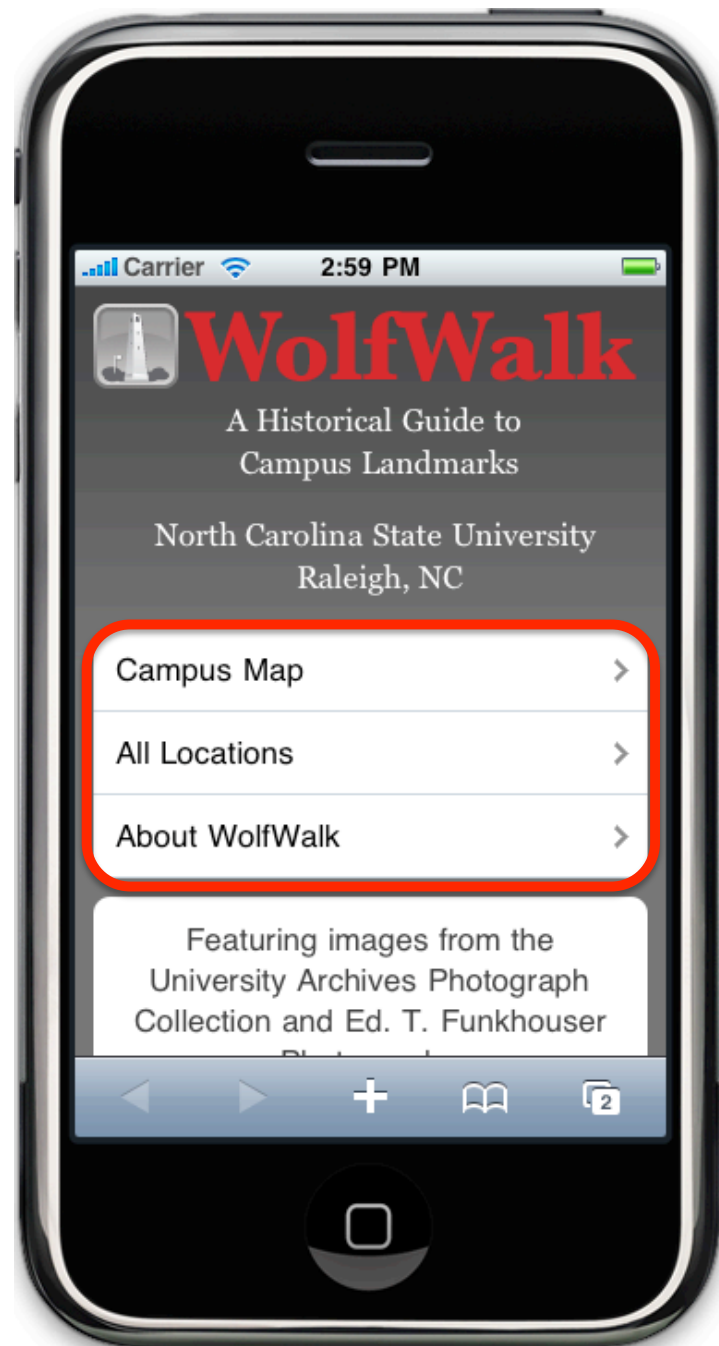

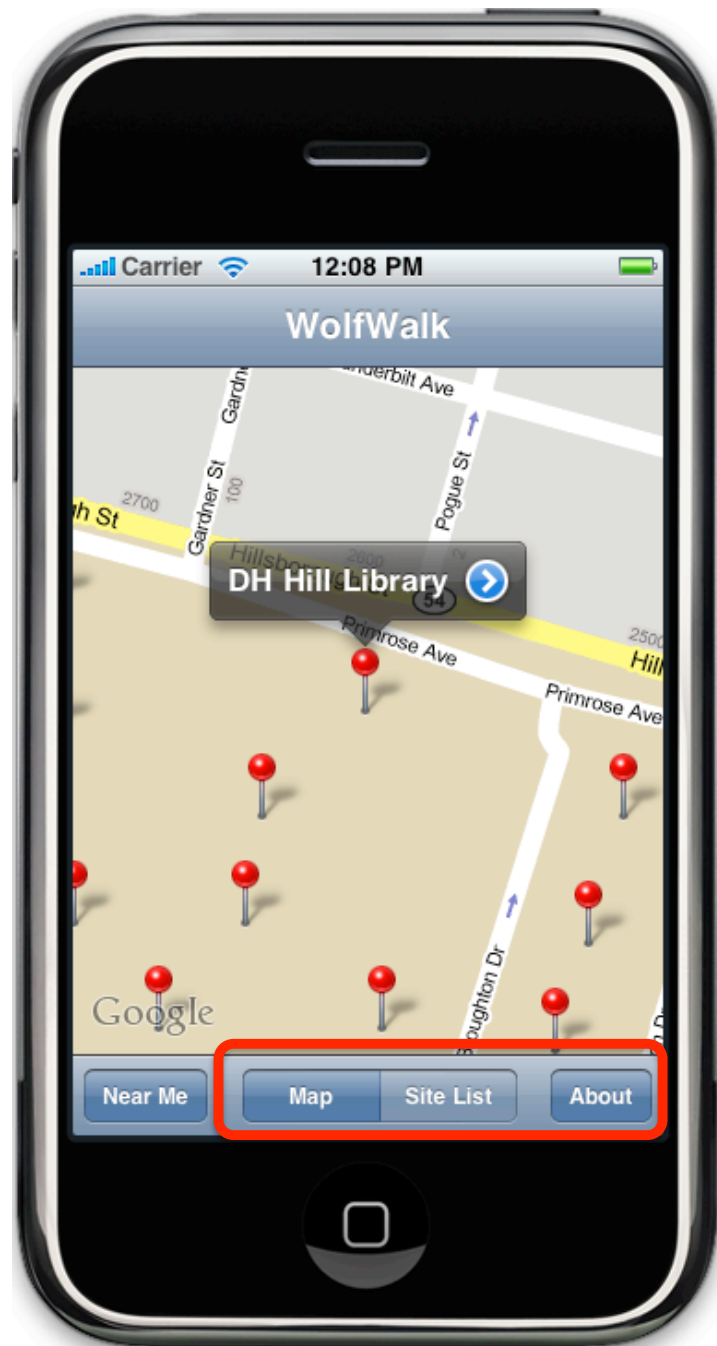

- Native iPhone App
- Geolocated special collections images
- Track the user's current location
- Browse historical images of sites on campus

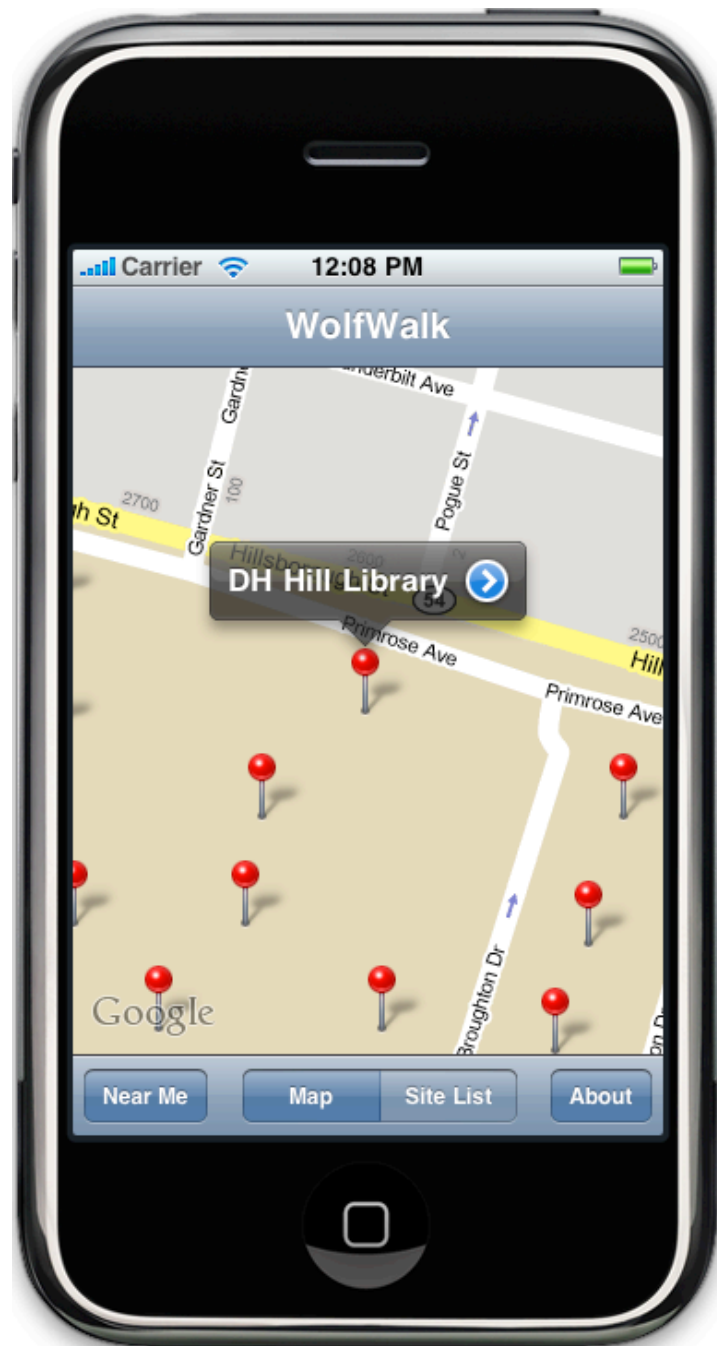

Shoutouts

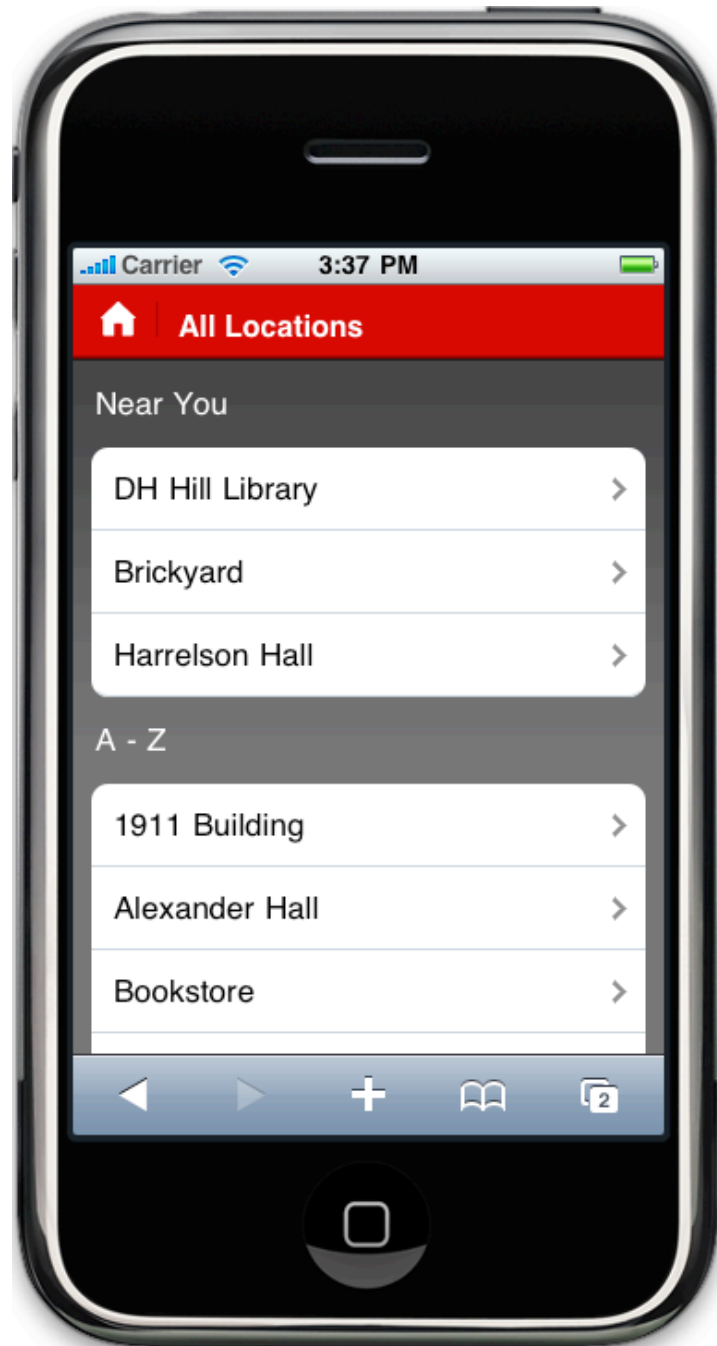

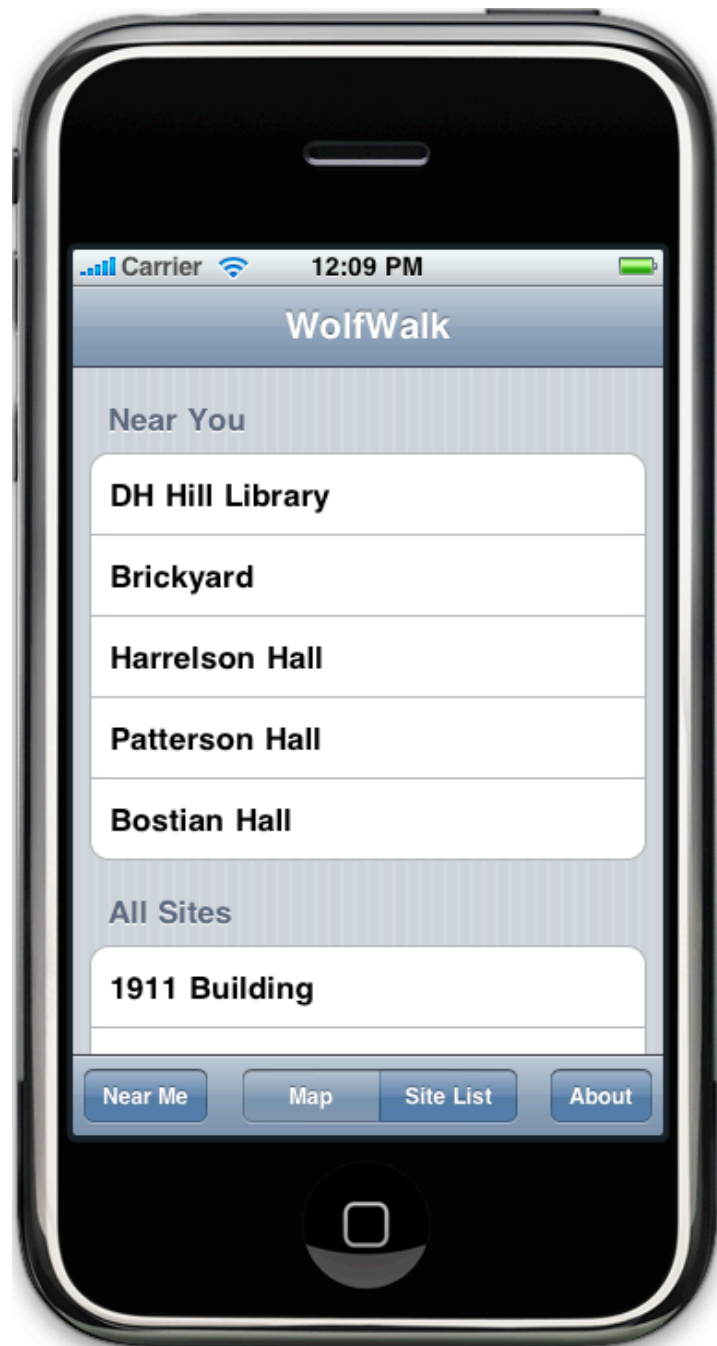

- The project team
 - Tito Sierra, Jason Casden, Steven Morris, Markus Wust, Brian Dietz, Todd Kosmerick, Joseph Ryan
- Technology
 - WURFL, MIT Mobile Web Open Source Project

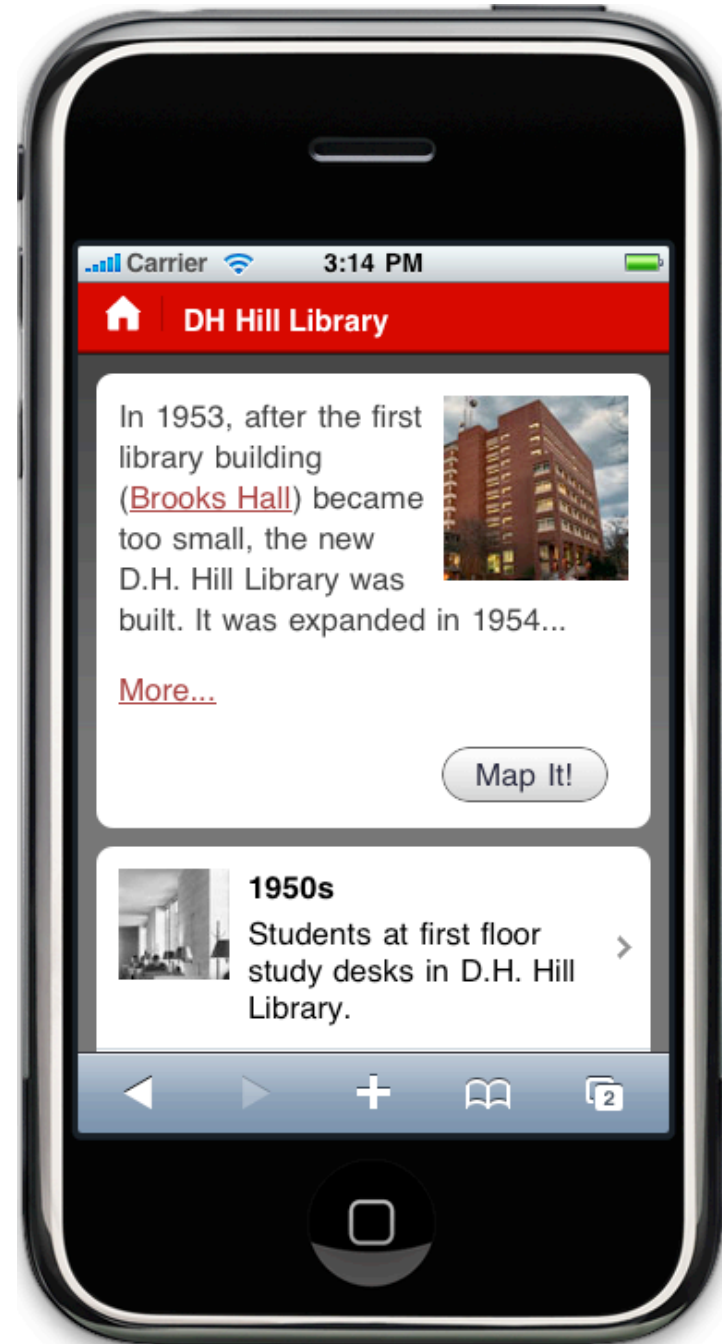

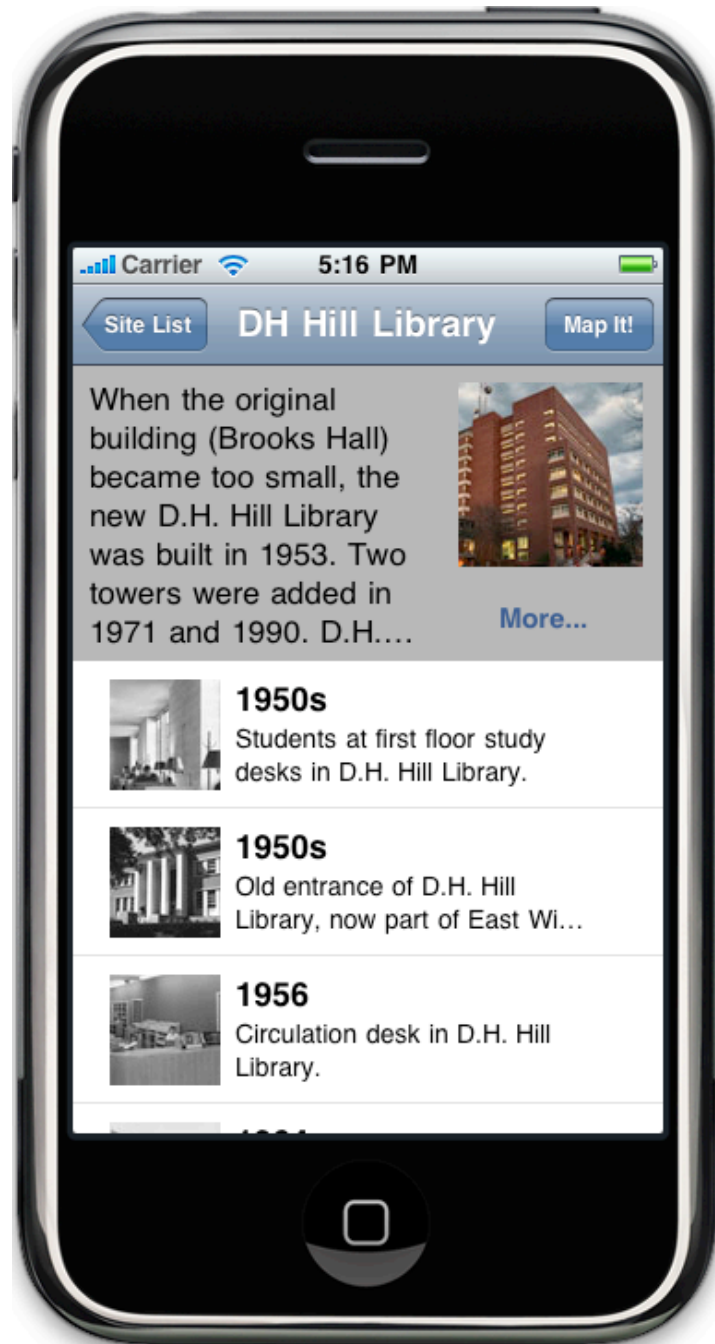

What happened?

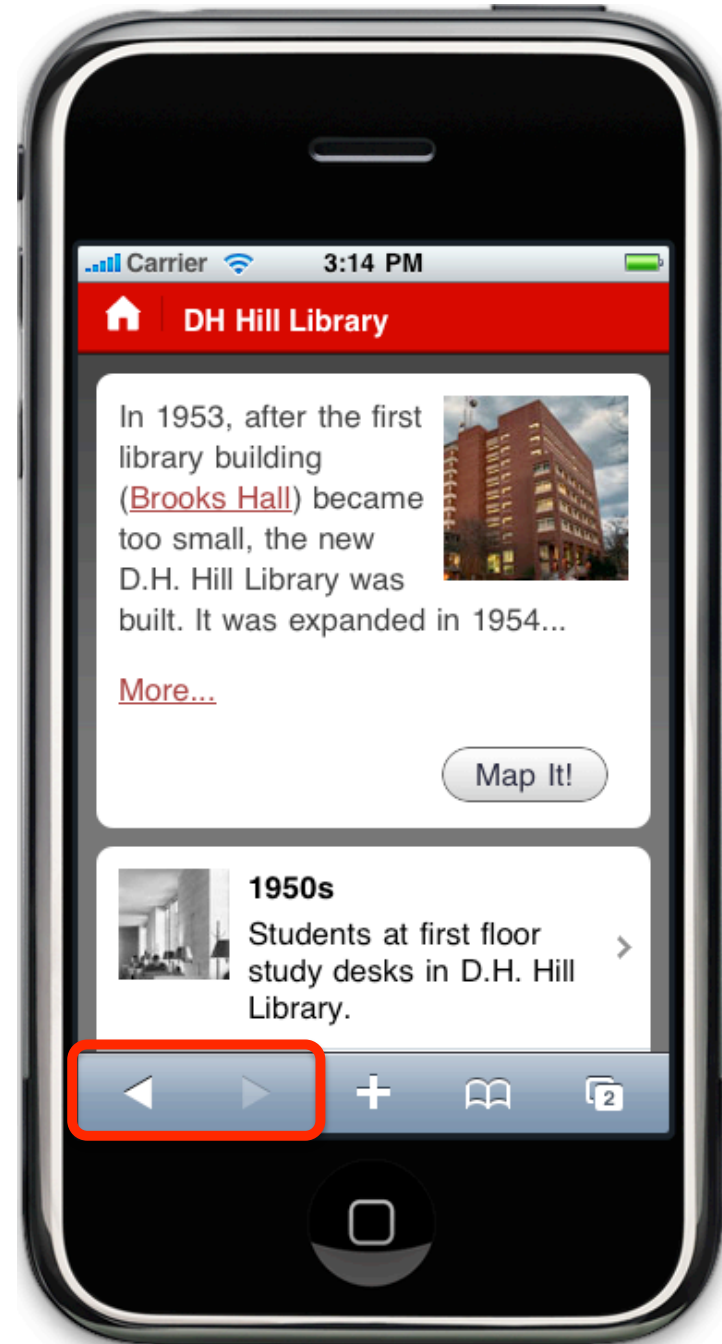

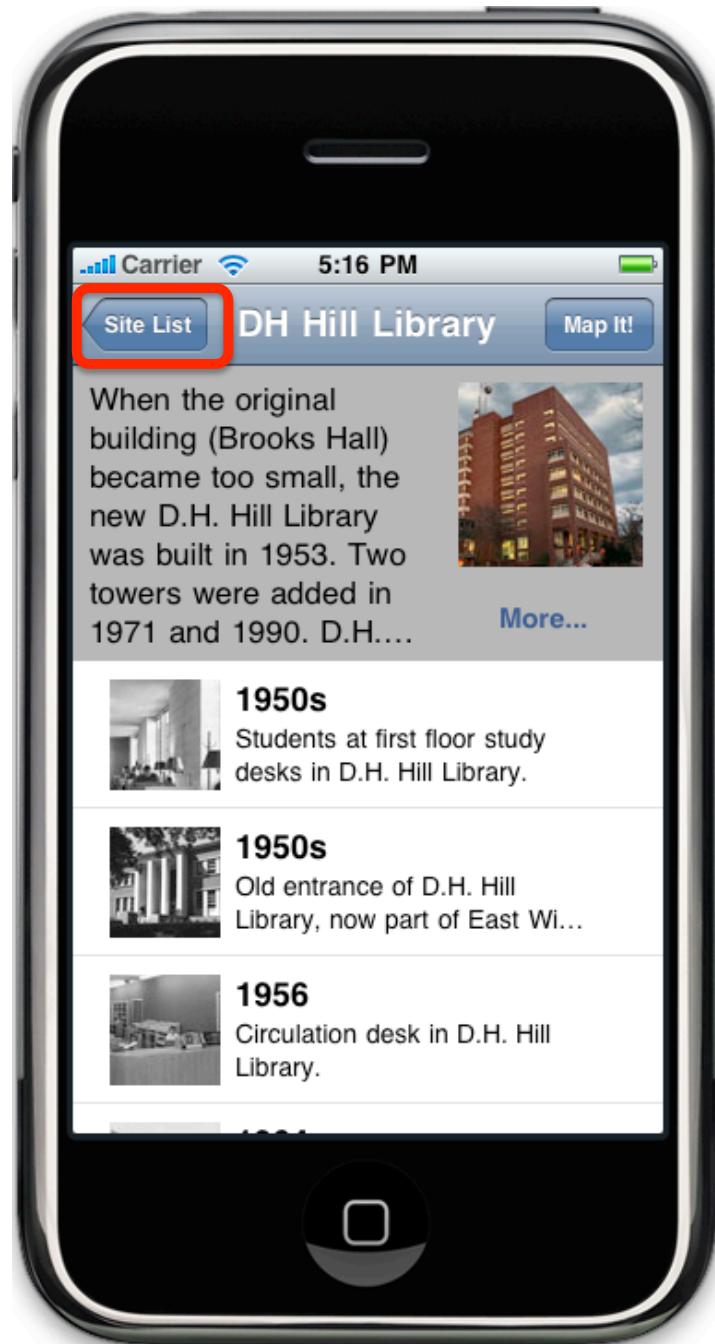

What did we learn?

Reminders

Separate data from display, REST, web services,
etc., etc...

Native Mobile Apps are...

well-integrated in the device interface

Native Mobile Apps are...

able to access some more features

Mobile Web Apps are...

easier for most developers

Mobile Web Apps are...

capable of more than we thought

Mobile Web Apps are...

a way to reach more users

Mobile Web Apps are...

a good way to avoid [Apple's] lawyers
